

Mitiaro Homestays

Cook Islands Tours is proud and delighted to help introduce the island of Mitiaro as an extension of visitors experience to the Cook Islands. Mitiaro Island is the latest of the outer islands to join the Cook Islands Tourist industry. However it was the expressed wish of its people to have a low key, unobtrusive tourist industry that will bring benefit directly to the people. A unique type of home-stay was designed which gives visitors and hosts alike the most comfortable experience on the island. So far three families have built traditional purpose built thatched huts for three host families to cater for visitors. The island besides it's unique and laid back lifestyle, also has beautiful caves and pools plus many other features to keep tourists occupied. Mitiaro is a lifestyle experience holiday which you can have snippets of just a few days or a total getaway of a week or more !
